Professional Summary

Senior Software Engineer and Team Lead with more than 10 years of experience in software development across enterprise, web, and mobile platforms. Specialized in backend development using **Java (JEE, Spring Boot)** and **Python (Django)**, with strong expertise in **REST API design, PostgreSQL databases, and secure authentication systems (JWT, IAM, Keycloak)**.

Experienced in designing scalable applications, implementing microservices architectures, and optimizing database performance. Proven ability to lead development teams, manage complex technical projects, and ensure high-quality software delivery.

Passionate about software architecture, automation, and emerging technologies including blockchain integrations and crypto.

Technical Skills

Programming Languages

- Java
- Python
- JavaScript
- HTML / CSS
- Flutter

Security

- JWT Authentication
- Identity & Access Management (IAM)
- Keycloak integration
- Role-Based Access Control

Databases

- PostgreSQL
- MySQL
- Oracle
- SQLite
- NoSQL databases

Backend & Frameworks

- Spring Boot
- Spring Security
- JEE
- JSF / PrimeFaces
- Django / Flask
- REST API Development
- Microservices Architecture

DevOps & Tools

- Maven
- Liquibase (DB Migration)
- Git
- CI/CD pipelines
- Linux environments
- Swagger / OpenAPI documentation

Reporting & Tools

- JasperReports
- StarUML
- GanttProject

Design

- Photoshop
- Inkscape

Professional Experience

Senior Software Engineer / Team Lead

EADN — Algeria (Feb 2023 – Present)

- Backend development using **Java and Spring Boot**
- Design and implementation of **secure REST APIs**
- Development of enterprise applications using **JEE and PrimeFaces**
- Implementation of **authentication and authorization systems (JWT, IAM, Keycloak)**
- Database design and optimization using **PostgreSQL**
- Implementation of **database migration strategies with Liquibase**
- Development of **Python microservices**
- Design and generation of reports using **JasperReports**
- Contribution to system architecture and technical decision-making

Team Leadership

- Leading backend development tasks
- Conducting code reviews and enforcing coding standards
- Coordinating development tasks within the team
- Ensuring project deadlines and software quality
- Worked in an **Agile / Scrum development environment** with sprint planning, task estimation, and iterative delivery.

Backend Developer / Project Manager

MeteoDZ — Algeria (May 2022 – Feb 2023)

- Backend development using Python (Django)
- Development of APIs for internal and external services
- Management and coordination of project development
- Technical decision-making and system design

Freelance Software Developer (Aug 2019 – May 2022)

Developed custom software solutions for businesses.

Key projects:

- Custom Invoicing System for SARL Nutrifort
 - Java + PostgreSQL + JasperReports
- Time Tracking Management System
 - Java + PostgreSQL
- Mobile Application for Diabetes Monitoring
 - Java + Firebase
- Educational Android Application for a nursery school

IT Engineer

IT Professional Company — Algeria (Aug 2013 – Aug 2019)

- Managing and maintaining IT infrastructure
- Server administration and network management
- Database management and system monitoring
- Development and maintenance of internal software solutions
- Troubleshooting technical issues and ensuring system reliability

Software Developer

Telloise — Algeria (Feb 2012 – Aug 2013)

- Developed a Time Tracking Software for EURL Telloise
 - Java + MySQL

Education

- **Master's Degree – Software Engineering** **Algeria — 2013**
- **Bachelor's Degree – Artificial Intelligence** **Algeria — 2011**
- **Baccalaureate – Mathematics** **Algeria — 2008**

Certifications

- Java Programming Certificate — Dalta
- Data Analysis Exploration — LinkedIn
- French Language Certificate (B2) — Busuu
- English Language Certificate (B2) — Busuu

Languages

- **Arabic** — Native
- **French** — Professional
- **English** — Professional

Strengths

- Strong analytical and problem-solving skills
- Ability to design scalable and maintainable systems
- Leadership and mentoring abilities
- Strong communication and teamwork skills
- Continuous learning mindset
